

This is a testimonial.

On Sept. 14, Frank installed a new kitchen faucet we had purchased. We were extremely impressed by his attitude and attention to detail. When we saw him put on his booties before entering the house, he had already made points with us as we don't wear shoes in the house.

He was extremely meticulous with the installation of the faucet; it is evident he takes great pride in his work and the result shows.

We had a small leak under the sink and he was sent back to check it at no charge, even though it turned out to be a problem with the faucet. New parts sent by Delta that I installed fixed the problem.

It is a pleasure to run across a service person with the personality, attitude and professionalism that Frank displayed. If we have any future plumbing needs, **we will definitely be calling Yavapai Plumbing & Heating.**

Sincerely,

John & Mary
